

Supplier RFP Proposal

Apex Systems

Strong architecture and security, higher price, moderate schedule

Synthetic classroom document. All supplier details and references are fictional.

Executive Summary and Requirement Understanding

Strong architecture and security, higher price, moderate schedule. We understand that the buyer requires a secure, scalable solution with integrations, measurable delivery, transparent cost, risk controls and dependable support.

Proposed Solution

Cloud-native modular architecture with REST APIs, event integration, explicit interface mappings, horizontal scaling, monitoring, disaster recovery and load targets.

Implementation Plan

Twenty-week delivery through discovery, design, build, integration testing, migration rehearsal and go-live. A delivery lead, architect and six engineers are assigned. Risks are reviewed weekly.

Commercial Value

Fixed implementation price INR 1.48 crore plus annual support of INR 22 lakh. Travel and third-party licences are excluded.

Cost item	Detail
Implementation	Fixed implementation price INR 1
Taxes	Excluded and charged as applicable
Proposal validity	90 days

Security and Compliance

ISO 27001 controls, encryption in transit and at rest, SSO, RBAC, audit logs, annual penetration tests and India-region hosting.

Support and Experience

24x7 P1 support, four-hour restoration target, five similar fictional implementations and two fictional references.

Risks and Assumptions

Delivery depends on timely stakeholder access, environments and interface documentation. Scope changes follow formal change control. No real supplier or customer data is used.
